

NABARD
NATIONAL BANK FOR AGRICULTURE AND RURAL DEVELOPMENT
Plot No, C-24, G Block, Bandra Kurla Complex
Bandra (E), Mumbai 400051

ADVERTISEMENT No.
RECRUITMENT OF SPECIALISTS ON CONTRACT – 2026-27 – DDMABI

NABARD is an all-India Apex Organization, wholly owned by Government of India and an equal opportunity employer. NABARD invites **only ONLINE** applications, in the prescribed format, from Indian citizens, having necessary qualification and experience, for engagement of **08 Specialists on contract** on contract for its **Head Office, Mumbai**. Candidates can apply **only ONLINE** on NABARD website www.nabard.org between **25.06.2026** to **13.07.2026**.

Before applying, candidates should read all the instructions carefully and ensure that they fulfill all the eligibility criteria for the post. NABARD would admit candidates on the basis of the information furnished in the ONLINE application along with applicable requisite fee and shall verify their eligibility at the stage of interview / joining. If, at any stage, it is found that any information furnished in the ONLINE application is false/ incorrect or if according to the Bank, the candidate does not satisfy the eligibility criteria for the post, his/ her candidature will be cancelled, and he/she will not be allowed to appear for the interview / joining.

Candidates are requested to apply **only ONLINE** through Bank's website www.nabard.org. No other mode of submission of application will be accepted by NABARD. **ALL REVISIONS/ CORRIGENDUM (IF ANY) WILL BE HOSTED ON THE BANK'S WEBSITE ONLY.**

Help Facility: In case of any problem in filling up the form, payment of fee/intimation charges, complaints may be made at "Candidate Grievance Lodging and Redressal Mechanism" at <https://cgrs.ibps.in/>. Do not forget to mention "**NABARD – Recruitment to the post of Specialists on contract**" in the subject of the email.

Important Dates / Timelines

Online Application Registration and Payment of Online Fees/Intimation Charges	25.06.2026 to 13.07.2026
NABARD reserves the right to make change in the dates indicated above.

II Place of posting - MUMBAI

III. ELIGIBILITY CRITERIA: Educational Qualification, Experience and Job Profile (as on 01.06.2026)

1) ETL Designer

Age	30 to 40 years
Qualification	Mandatory - B.E/ B.Tech. in Computer Science/ Computer Engineering/ Information Technology or M. Tech / M.E. in Computer Science/ Computer Engineering/ Information Technology or MCA Desirable - Certification in one of the popular ETL tools, viz. Talend, Informatica, Ab-Initio, MS SQL Server
Experience	Experience - Minimum 7 years of IT experience of which 3-5 years of experience in Designing ETL mappings - Ability to guide junior ETL developers - Good knowledge of SQL and Dimensional Modeling concepts Mandatory Skills - Business acumen for interacting with business partners - Familiarity with BFSI domain, familiarity with core banking system Desired Skills - SQL expertise (complex queries, performance tuning, stored procedures), data modeling (dimensional, relational, star/snowflake schemas), database management (Oracle, MySQL, PostgreSQL, NoSQL concepts), and a deep understanding of data warehousing principles. - Proficiency in industry-standard ETL tools such as Informatica, Talend, Microsoft SSIS, or Apache NiFi. Familiarity with modern, cloud-native services like AWS Glue, Azure Data Factory, or Google Cloud Dataflow is also highly valued.

	• Experience with programming and scripting languages, particularly Python or Java, for custom transformations, automation, and API integrations. • Knowledge of major cloud platforms (AWS, Azure, Google Cloud) and big data technologies (Hadoop, Spark, Kafka) to handle large volumes and diverse data sources. • Understanding of version control systems like Git, experience with automated testing frameworks, and knowledge of workflow orchestration tools such as Apache Airflow for managing complex pipelines.
Job profile	• Lead and guide the ETL architecture to handle complex business rules while balancing the fulfilment of stringent performance requirements • Drive design and determine the ETL requirements for BI projects • Work with team to ensure standards and patterns are followed • Determine strategies for data integrity validation processes • Partner with the Data architect to drive improvements and enhancements to the current data landscape and future strategy • Support ETL developers by providing technical assistance, troubleshooting and alternative development solutions • Assist in the development of ETL-related Service Level Agreements • Communicate risks and ensure understanding of these risks. Key Responsibilities • Lead and guide the ETL architecture to handle complex business rules while balancing the fulfilment of stringent performance requirements. • Drive design and determine the ETL requirements for BI projects. • Work with team to ensure standards and patterns are followed. • Determine strategies for data integrity validation processes. • Partner with the Data architect to drive improvements and enhancements to the current data landscape and future strategy. • Support by providing technical assistance, troubleshooting and alternative development solutions. • Assist in the development of ETL related Service Level Agreements, communicate risks and ensure understanding of these risks. • Any other tasks related to above.

2) Senior Data Scientist

Age	28 to 45 years
Qualification	Mandatory • Full Time B.E./B. Tech in Computer Science/ Computer Engineering/Information Technology/ Data Science/ Machine Learning and AI - First class (minimum of 60% marks) or equivalent or M.E./M. Tech in Computer Science/ Computer Engineering/ IT/ Data Science/ Machine Learning and AI or MCA.

	Desirable • Certification in AI/ ML/ Natural Language Processing/ Web Crawling and Neural Networks
Experience	Experience • Minimum 05 years of (post basic educational qualification) experience as a data scientist or related field. • Preference will be given to candidates with experience in financial sector/ banks/ NBFCs/ Insurance/ Investment firms. • Experience in natural language processing, Web Crawling and Neural Networks. • Experience in projects with Machine learning/ Artificial Intelligence technologies. • Proficiency in programming languages frequently used in data science (Python). • Experience in Unix/ Linux. • Experience in cloud-based application/ service development. • 2+ years' experience in Relational Database or any NoSQL database including Graph databases. • Excellent communication skills and ability to work as part of a multicultural product development team. • End-to-end experience from data extraction to modelling and its validation. • Experience of working in a project environment as a developer. Mandatory Skills • Expertise in Machine Learning technologies. • Expertise in developing models using structured, semi-structured and unstructured data. • Expertise in Analytical Databases like Vertica DB or similar platforms. • Data Modelling and Data Intelligence/ Data Cataloguing skills with tools like Alation. • SQL (DDL / DML / DQL). Desired Skills • Understand Data protection techniques like encryption, data masking and tokenization to safeguard sensitive data in transit and at rest. • Experience in designing secure solutions architecture for Cloud platforms (private/ public/ Hybrid). • Experience in PowerBI or similar tools. • Expertise in MS Excel data analytics. • Expertise in usage and deployment of LLMs.
Job profile	• Implement Machine learning/ Artificial Intelligence/ Natural Language Processing tools and models to improve the operational efficiency. • Designing and implementation of big data scalable workflow systems using Big Data Technologies. • Design, develop, and deliver new functionalities for the internal production platform and client delivery platforms. Collaborate with Product Management, Business, Quality Assurance, Data

	Operation, and IT Infrastructure teams to understand their requirements and develop solutions for such needs. • Develop and establish relevant integration metrics (KPIs/ SLAs) to drive results. • Involve and help in data reconciliation, storage (capacity planning), data governance, data quality, data cataloguing, lineage using different tools with AI/ ML capabilities. • Interaction and coordination with internal and external stakeholders. • Create, review and present Documentation and coordinate approvals Key Responsibilities • Be self-motivated, pro-active, and demonstrate an exceptional drive towards service delivery. • Identify valuable data sources and automate collection/ collation processes. • Undertake preprocessing of structured and unstructured data. • Analyze information to discover trends and patterns. • Use AI/ ML techniques to improve the quality of data and/ or product offerings. • Find patterns and trends in datasets to uncover insights. • Create algorithms and data models to forecast outcomes. • Combine models through ensemble modelling.
--	--

3) Data Scientist

Age	25 to 40 years
Qualification	Mandatory • Full Time B.E./B. Tech in Computer Science/ Computer Engineering/IT/ Data Science/ Machine Learning and AI - First class (minimum of 60% marks) or equivalent or M.E./M. Tech in Computer Science/ Computer Engineering/ IT/ Data Science/ Machine Learning and AI or MCA. Desirable • Certification in Data Science / AI / ML / Natural Language Processing /Web Crawling and Neural Networks
Experience	Experience • Minimum 3 years of (post basic educational qualification) experience in related field, out of which: a) 2 + years experience with programming languages frequently used in data science (R/ Python) or b) 2+ years experience in model development, model validation or related field or c) 2+ years experience in data analytics or d) 2+ years experience in Relational Database or any NoSQL database including Graph databases. • Experience in ML/ AI project delivery - end-to-end, from data extraction to model validation.

	• Experience in natural language processing, Web Crawling, Neural Networks and Neural Language models. • Experience in developing and supporting GenAI solutions, including RAG pipelines, embeddings, vector databases and evaluation of GenAI model outputs. • Experience in Data Warehouse environments - working with EDW architectures, dimensional models, data marts and large-scale analytical datasets. • Preference will be given to candidates with experience in financial sector/ banks/ NBFCs/ Insurance/ Investment firms. Mandatory Skills • Technical expertise regarding data models/ database design development, data mining and segmentation techniques. • Expertise in Machine Learning technologies. • Expertise in testing & validation of quality and accuracy of AI models. • Expertise in developing models using structured, semi-structured and unstructured data. • Expertise in Analytical Databases like Vertica DB or similar platforms. • Data Modelling and Data Intelligence/ Data Cataloguing skills with tools like Alation. • SQL (DDL/ DML/ DQL). Desired Skills • Good understanding of Data Model and types of dimension modelling. • Experience in Conversational AI and dialogue systems. • Strong understanding of explainable and Responsible/ Ethical AI framework. • Understand Data protection techniques like encryption, data masking and tokenization to safeguard sensitive data in transit and at rest. • Experience in designing secure solutions architecture for Cloud platforms (private/ public/ Hybrid). • Experience -with tools like Nifi, HBase, Spark, pig, storm, flume, etc. • Experience in BI tools. • Expertise in MS Excel data analytics. • Hands-on experience in developing and deploying GenAI solutions including Retrieval Augmented Generation (RAG) pipelines. • Expertise in usage and deployment of LLMs. • Excellent communication skills and ability to work as part of a multicultural product development team.
Job profile	• Identify, analyse and interpret trends or patterns in complex datasets. • Utilise a hypothesis-driven problem-solving approach to design, construct and rapidly test/ iterate exploratory analytics that will reveal insight and opportunities for the business.

	• Generate efficient data marts, analysis and reports on large datasets, building basic automations to reduce manual interventions for repeated analysis and data updates. • Locate and define new process improvement opportunities. • Develop, and deploy machine learning/ artificial intelligence/ natural language processing models. • Monitor the performance and accuracy of the AI/ ML models in production. • Closely collaborate with business teams to develop/ co-create analytics use cases. • Implement Machine learning/ Artificial Intelligence/ Natural Language Processing tools to improve the operational efficiency. • Designing and implementation of big data scalable workflow systems using Big Data Technologies. • Design, develop, and deliver new functionalities for the internal production platform and client delivery platforms. Collaborate with Product Management, Business, Quality Assurance, Data Operation, and IT Infrastructure teams to understand their requirements and develop solutions for such needs. • Develop and establish relevant integration metrics (KPIs/ SLAs) to drive results. • Involve and help in data reconciliation, storage (capacity planning), data governance, data quality, data cataloguing, lineage using different tools with AI/ ML capabilities. • Interaction and coordination with internal and external stakeholders. • Create, review and present Documentation and coordinate approvals. GenAI & RAG Solution Support • Support the enterprise-level RAG-based GenAI solution being implemented by DDMABI, including pipeline development, embedding management and model evaluation. • Design and develop prompt engineering strategies tailored to enterprise banking use cases • Integrate LLMs and GenAI capabilities with existing enterprise data assets and BI platforms. • Evaluate and benchmark GenAI model outputs; implement feedback loops for continuous improvement. • Collaborate with the application and data engineering teams for seamless integration of GenAI components within ENSURE, ENGAGE (internal applications) and EDW environments. • Adhere to responsible AI practices, data privacy requirements (including DPDP Act compliance) and data governance standards prescribed by DDMABI. • Closely collaborate with business teams to develop/ co-create analytics use cases, define success metrics and deliver impact-driven analytical solutions • Develop and establish relevant integration metrics (KPIs/ SLAs) to drive analytical outcomes.
--	---

	Key Responsibilities • Be self-motivated, pro-active, and demonstrate an exceptional drive towards service delivery. • Identify valuable data sources and automate collection/ collation processes. • Undertake preprocessing of structured and unstructured data. • Analyse information to discover trends and patterns. • Use AI/ ML techniques to improve the quality of data or product offerings. • Find patterns and trends in datasets to uncover insights. • Create algorithms and data models to forecast outcomes. • Combine models through ensemble modelling. • Support the GenAI initiative, including RAG pipeline operations, LLM evaluations and integration with enterprise portals. • Collaborate cross-functionally with data engineering, application development, domain experts and business teams. • Adhere to model governance practices including documentation, model lineage, explainability and bias mitigation • Ensure compliance with data protection frameworks including DPDP Act, 2023.
--	---

4) Document Designer

Age	28 to 40 years
Qualification	Mandatory • Bachelor's degree in any field. Desirable • Masters Degree in Graphic Design, Visual Communication, Fine Arts / Certification or advanced training in Adobe InDesign, Illustrator, Photoshop, or equivalent design software
Experience	Experience • Minimum 5 years of professional experience in document/ report design, preferably in BFSI or consulting sector. Demonstrated portfolio of multi-page reports, infographics, and digital publications. Excellent communication skills and ability to work as part of a multicultural product development team. Mandatory Skills • Proficiency in Adobe InDesign, Illustrator, Photoshop; strong understanding of page layout, typography, and information design; experience in preparing print-ready and interactive PDFs; ability to collaborate with technical and business teams. Desired Skills • Experience with PowerPoint, Figma, or Canva; knowledge of branding, colour theory, and visual hierarchy; familiarity with data visualization and infographics; experience in BFSI or large enterprise environments.
Job profile	• Design and produce multi-page reports, dashboards, and digital publications; create templates and visual assets; ensure

	consistency with organizational branding; collaborate with data and business teams to visualize complex information; manage production for print and digital outputs. Key Responsibilities • Develop layouts for reports, dashboards, and presentations • Create infographics, icons, and visual assets • Ensure brand and visual consistency • Prepare print-ready and digital files • Collaborate with stakeholders to understand requirements • Any other tasks related to above.
--	--

5) AI Engineer

Age	26 to 40 years
Qualification	Mandatory • B.E./B. Tech in Computer Science/ Computer Engineering/ IT/ Electronics and Telecommunication; or Master's in Data Science/ Machine Learning/ Artificial Intelligence Desirable • Certification in AI/ Gen AI/ ML/ Natural Language Processing/ or Neural Networks
Experience	Experience • Minimum 5 years of experience after completion of basic educational qualification, including: a) At least 2 years as an AI Engineer (Experience in projects with Machine learning/ Artificial Intelligence technologies), and b) At least 2 years as a backend developer. • Experience of working with RAG techniques, Vector databases like Qdrant, building agents/ agentic workflows. • Proficiency in programming languages frequently used in data science (Python). • Experience in Unix/ Linux/ Oracle/ SQL/ NoSQL. • Experience in cloud-based application/ service development. • Excellent communication skills and ability to work as part of a multicultural product development team. • Preference will be given to candidates with experience in financial sector/ banks/ NBFCs/ Insurance/ Investment firms Mandatory Skills • Scripting & Automation: Python scripting for prompt experiments and RAG testing. • Knowledge of Retrieval-Augmented Generation (RAG), GraphRAG, Vector databases. • Knowledge of statistical models/ Machine Learning algorithms for prediction/ classification tasks. • Agent design patterns like ReAct, planning-based agents, or multi-agent workflows. • Prompt Design & Optimization: Craft system prompts, few-shot examples, and context windows.

	• Evaluation & Tuning: Develop frameworks for testing prompts (BLEU, ROUGE, human validation, factuality). • LLM Parameter Understanding: Know temperature, top-p, and context length effects. • Embedding Logic: Understand how vector stores (Milvus/pgvector) feed context to prompts. • Chain of Thought Structuring: Use reasoning templates for multi-step tasks (e.g., “analyze → explain → recommend”). • Prompt Tooling: Familiarity with prompt orchestration tools (LangChain, Guidance, Prompt Layer). • Establishing Model Context Protocol (MCP)/ API connections. Developing custom APIs. Desired Skills • Understand Data/ privacy protection techniques like encryption, data masking and tokenization to safeguard sensitive data. • Applying Retrieval-Augmented Generation (RAG) technique to reduce hallucination and ground LLM answer on approved content.
Job profile	• Build/ tune agents/ workflows for different use cases and establish reusability. • Craft, refine, and test prompt templates, chains, and instructions for different use-cases (summarization, Q&A, risk analysis, etc.). • Design retrieval prompts that extract and summarize from verified sources, reducing hallucination. • Establish MCP/ API connections. Develop custom APIs. Creation of Tools for AI agents. • Collaborate with data and MLOps teams to integrate prompts with RAG pipelines connecting NABARD’s data lake. • Capture prompt–response pairs for evaluation and model improvement. • Develop both system prompts (model personality and boundaries) and user prompts (context queries and tasks), including “chain-of-thought” prompts to guide reasoning and ensure factual completeness. • Establish and maintain NABARD’s AI communication persona and tonality— formal, transparent, inclusive, and neutral. • Ensure AI-generated content reflects NABARD’s institutional ethos, avoiding political bias or sensitive opinions. • Develop prompts/ prompt library in English, Hindi, and regional languages to ensure accessibility for NABARD’s diverse user base. • Conduct A/B testing on prompts to improve factuality, brevity, tone, and latency. • Maintain prompt repositories and version control for traceability and audit readiness. • Optimize prompts for latency, token efficiency, and cost — balancing context depth and compute limits.

	Key Responsibilities • Implement retrieval augmented generation (RAG) pipelines - document ingestion, chunking, vector indexing, hybrid semantic+keyword retrieval, reranking and grounding with enterprise sources. • Develop secure APIs/ services and MCP connections for integration with applications. • Conduct research on emerging trends in generative AI to stay up-to-date with industry advancements. • Collaborate with functional departments to integrate Gen AI solutions into existing systems. • Apply Responsible AI guardrails: input/ output filtering, PII/ PHI detection, content safety, red teaming and risk assessments. • Create technical design documents, runbooks and handover artifacts. • Be self-motivated, pro-active, and demonstrate an exceptional drive towards service delivery. • Test LLM apps for regressions, hallucinations, or unsafe outputs before release. • Setting up observability for LLM apps to detect drift, failures, or quality drops after deployment.
--	--

6) Data Engineer

Age	25 to 35 years
Qualification	Mandatory • B.E/ B.Tech. in Computer Science/ Computer Engineering/ Information Technology or M. Tech / M.E. in Computer Science/ Computer Engineering/ Information Technology or MCA Desirable • Relevant certifications such as Oracle Certified Professional/ Cloudera Certified Administrator credentials
Experience	Experience • Minimum 5 years of IT experience after completion of basic educational qualification, including: a) At least 2 years as a Data Engineer, and b) At least 2 years as a Database Developer • Create and modify database schemas, tables, views, indexes, triggers, stored procedures, functions, and other objects • Good knowledge and experience in use of ETL / ELT tools • Good knowledge and expertise in use of atleast one tool and languages such as SQL, PL/SQL, Oracle, MySQL, PostgreSQL, etc., and Dimensional Modeling concepts • Experience in API Management Platforms; Optimize API performance and scalability to ensure high availability and responsiveness • Participate in code reviews and ensure code quality and adherence to best practices • Contribute to the development of unit tests and documentation • To guide junior Data modelers

	• Leverage and enforce standards for data naming conventions to ensure consistency and reuse of data models Desirable • Solid understanding of authentication and authorization protocols like OAuth, JWT, SAML and Kerberos • Proficient in using tools like Swagger/ OpenAPI for API documentation • Working knowledge of on Prem/ Cloud based Systems • Working knowledge of Data Visualisation and Analytical Tools • Strong understanding of version control systems and agile development methodologies • Knowledge of containerization and Orchestration Tools • Business acumen through interacting with business partners • Experience in BFSI domain. Familiarity with data in core banking system • Collaborate with cross functional teams, including front end developers and designers to define and implement new features.
Job profile	• To develop and maintain database documentation, including data standards, procedures and definitions for data elements and tables in the Company • To optimise ETL / ELT jobs • To optimise database queries, using indexes and SQL features • Analyze data needs and use skills in coding to maintain secure databases • Design and implement effective database solutions and models to store and retrieve data • Adhere to architecture standards • Focus on improving data quality, accessibility and security • Improve system performance by conducting tests, troubleshooting and integrating new elements • Optimize new and current database systems • Define security and backup procedures • Coordinate with the Data Science department to identify future needs and requirements • Provide operational support for Management Information Systems (MIS)

IV Selection Process

- 1) The selection will be by way of interview. The candidates will be shortlisted for interview in the ratio of 1:3 on the basis of qualification, experience, etc.
- 2) The shortlisted candidates serving in Govt./ Quasi Govt. offices, Public Sector undertakings including Nationalized Banks and Financial Institutions are advised to submit 'No Objection Certificate' from their employer at the time of interview, failing which their candidature may not be considered and travelling expenses, if any, otherwise admissible, will not be paid.
- 3) Selected candidates will have to undergo pre-recruitment medical examination. Final appointment will be done only of those candidates who are declared medically fit by Bank's Medical Officer.
- 4) The Bank reserves the right to increase/ decrease the number of post/s or cancel the above contract recruitment in part or full as per institutional requirement without assigning any reason. The roll numbers of candidates shortlisted for interview & subsequent selection shall

be published on Bank's website viz. www.nabard.org. The decision of the Bank in shortlisting candidates for interview & selecting them for appointment based on minimum qualifying standard shall be final and no correspondence will be entertained in this regard. The final appointment will be based on the decision of the Selection Committee constituted for the purpose.

V APPLICATION FEE (NON-REFUNDABLE)

Application fee (exclusive of applicable GST) for the post will be as under:

(Amount in Rs.)

Category of applicant	Application Fee	Intimation charges etc.	Total
For SC/ ST/ PWBD	NIL	150	150*
For all others	700	150	850*

* Exclusive of applicable GST

VI Place of posting, Compensation, Period of contract and other benefits:

a. Place of Posting : NABARD, Head Office, Mumbai

b. Compensation

Sr No	Post	Consolidated Remuneration All inclusive (in Rs.)
1	ETL Designer	24-32 lakh/pa
2	Senior Data Scientist	24-42 lakh/pa
3	Data Scientist	18-30 lakh/pa
4	Document Designer	12-24 lakh/pa
5	AI Engineer	24-45 lakh/pa
6	Data Engineer	18-24 lakh/pa

The Specialist on contract will be liable for tax liabilities as per Income Tax Act & Rules in force and the tax will be deducted at source. The amount of compensation being cost to NABARD, will be inclusive of any statutory payments that NABARD may be required to pay on behalf of the Specialist on contract. Annual increment up to a maximum of 10% can be granted based on satisfactory performance and discretion of the Bank.

c. Period of contract

- i. 02 years from the date of appointment extendable for a further period of 03 years. The engagement would be extended after taking a review one year at a time and in any case will not be beyond 05 years. The Bank may terminate the contract at any time without prior notice and without providing any reason thereof. However, in normal course, NABARD may terminate the engagement by giving one month's notice in advance. The Specialist can also seek termination of the contract by giving one month's notice.
- ii. In case the notice period is not being served, the Specialist has to pay a sum equivalent to pay for the period of notice required of him /her.

- iii. Notwithstanding the above, NABARD retains the right to modify the terms of the recruitment, suspend or terminate the engagement with any Specialist, without assigning any reason thereof.

d. Superannuation Benefits

The Specialists shall not be entitled to any superannuation benefits viz., Provident Fund, Pension, Gratuity, etc.

e. Travelling / Halting Allowance

Whenever official tour is required, the Specialist will be entitled for Travelling & Halting Allowance as admissible to the officers in the Bank of equivalent grade for official tours outside the headquarters or as mentioned in the appointment letter.

f. Leave

- i. Maximum of 30 days per calendar year during the contract period, on a proportionate basis.
- ii. The total absence during contract period cannot be beyond 10 days at any point of time except on emergency medical grounds subject to production of relevant medical certificate.
- iii. If absence during contract period is more than 01 month, it shall be treated as notice period except under exceptional circumstances where leave is duly approved by the concerned department's CGM/OIC.
- iv. During the notice period, the Specialists on Contracts may not be allowed to avail leave. However, he/ she may be allowed to avail leave only on emergency medical grounds subject to production of relevant medical certificate.
- v. Contract appointees will be permitted to avail leave subject to administrative convenience of the Bank.
- vi. Un-availed leave at the end of a year will not be permitted to be carried forward.
- vii. Intervening holidays during the period of absence will be reckoned as leave.
- viii. Any absence beyond the above period may be treated as leave without pay.

g. Accommodation:

- i. Specialist will be allotted quarters based on his/her request and subject to availability, against payment of licence fee of 0.5% of remuneration.
- ii. Specialist will be eligible for a fixed House Rent Allowance (HRA) of 10% of remuneration in the event of non-allotment of quarters.

h. Reporting:

The Specialist will report to an officer of higher grade in the department as decided by OIC.

i. Office Facilities:

- i. NABARD will provide Office Space, Internet Connectivity, and other support facilities.
- ii. Lounge facilities as applicable to the officers of the Bank will be provided. This facility will not be applicable in case of remote working.

j. Medical Facility :

For self only, at the Dispensary of the Bank, wherever available.

k. Legal Status:

Specialist shall be selected on contract basis and shall have no right / claim for placement in NABARD by the virtue of engagement of their services by the Bank. Services of the staff on contract shall be governed by the code of conduct as applicable to Specialists / Consultants engaged on contract.

VII. How to apply:

Detailed Guidelines/Procedures for

- a. Application Registration
- b. Payment of fees
- c. Document scan and upload

Candidates can apply only online from 25.06.2026 to 13.07.2026 and no other mode of application will be accepted.

Important Points to be noted before registration.

Before applying online, candidates should-

1. Scan their:
 - a. Photograph (4.5cm × 3.5cm)
 - b. Signature (with black ink)
 - c. Left thumb impression (on white paper with black or blue ink)
 - d. A handwritten declaration (on a white paper with black ink) (text given below)
 - e. Ensuring that all these scanned documents adhere to the required specifications as mentioned at point VIII C.
2. The left thumb impression should be properly scanned and not smudged. (If a candidate is not having left thumb, he/she may use his/ her right thumb for applying.)
3. The text for the handwritten declaration is as follows –

“I,_(Name of the candidate), hereby declare that all the information submitted by me in the application form is correct, true and valid. I will present the supporting documents as and when required.”

The above-mentioned handwritten declaration has to be in the candidate's own hand writing and in English only. If it is written and uploaded by anybody else or in any other language, the application will be considered as invalid. (In the case of Visually Impaired candidates who cannot write may get the text of declaration typed and put their left-hand thumb impression below the typed declaration and upload the document as per specifications.)

4. Keep the necessary details/documents ready to make Online Payment of the requisite application fee/ intimation charges.
5. Have a valid personal email ID and mobile number, which should be kept active till the completion of this Recruitment Process. Bank may send intimation to download call letters for the Examination etc. through the registered e-mail ID. In case a candidate does not

have a valid personal e-mail ID, he/she should create his/her new e-mail ID and mobile number before applying on-line and must maintain that email account and mobile number.

**Application fees/ intimation charges (nonrefundable) payment of fee online:
25.06.2026 to 13.07.2026**

Bank Transaction charges for Online Payment of application fees/intimation charges will have to be borne by the candidate.

A. Application Registration

- a. Candidates to visit the NABARD website – www.nabard.org and under Career Notices, click on the option "APPLY HERE" below the concerned recruitment advertisement, which will open a new screen.
- b. To register application, choose the tab "Click here for New Registration" and enter Name, Contact details and Email-id. A Provisional Registration Number and Password will be generated by the system and displayed on the screen. Candidate should note down the Provisional Registration Number and Password. An Email & SMS indicating the Provisional Registration number and Password will also be sent.
- c. In case any candidate is unable to complete the application form in one go, he / she can save the data already entered by choosing "SAVE AND NEXT" tab. **Prior to submission of the online application, candidates are advised to use the "SAVE AND NEXT" facility to verify the details in the online application form and modify the same if required.** Visually Impaired candidates should fill the application form carefully and verify/ get the details verified to ensure that the same are correct prior to final submission.
- d. Candidates are advised to carefully fill and verify the details filled in the online application themselves as no change will be possible/ entertained after clicking the COMPLETE REGISTRATION BUTTON.
- e. The Name of the candidate or his /her Father/ Husband etc. should be spelt correctly in the application as it appears in the Certificates/ Mark sheets/Identity proof. Any change/alteration found may disqualify the candidature.
- f. Validate your details and save your application by clicking the 'Validate your details' and 'Save & Next' button.
- g. Candidates can proceed to upload Photo & Signature as per the specifications given in the Guidelines for Scanning and Upload of Photograph and Signature detailed under point "C".
- h. Candidates can proceed to fill other details of the Application Form.
- i. Click on the Preview Tab to preview and verify the entire application form before FINAL SUBMIT.

- j. **Modify details, if required, and click on 'COMPLETE REGISTRATION' ONLY after verifying and ensuring that the photograph, signature uploaded and other details filled by you are correct.**

- k. Click on 'Payment' Tab and proceed for payment.

B. Payment of Fees

Online Mode

- a. The application form is integrated with the payment gateway and the payment process can be completed by following the instructions.
- b. The payment can be made by using Debit Cards (RuPay/Visa/MasterCard/Maestro), Credit Cards, Internet Banking, IMPS, Cash Cards/ Mobile Wallets.
- c. After submitting your payment information in the online application form, **PLEASE WAIT FOR THE INTIMATION FROM THE SERVER. DO NOT PRESS BACK OR REFRESH BUTTON IN ORDER TO AVOID DOUBLE CHARGE**
- d. On successful completion of the transaction, an e-Receipt will be generated.
- e. Non-generation of 'E-Receipt' indicates PAYMENT FAILURE. On failure of payment, Candidates are advised to login again using their Provisional Registration Number and Password and repeat the process of payment.
- f. Candidates are required to take a printout of the e-Receipt and online Application Form containing fee details. Please note that if the same cannot be generated, online transaction may not have been successful.
- g. For Credit Card users: All charges are listed in Indian Rupee. If you use a non-Indian credit card, your bank will convert to your local currency based on prevailing exchange rates.
- h. To ensure the security of your data, please close the browser window once your transaction is completed.
- i. There is facility to print application form containing fee details after payment of fees.

C. Guidelines for scanning and Upload of Documents

Before applying online a candidate will be required to have a scanned (digital) image of his/her photograph, signature, left thumb impression and the hand written declaration as per the specifications given below.

Photograph Image: (4.5cm × 3.5cm)

- a. Photograph must be a recent passport style colour picture.
- b. Make sure that the picture is in colour, taken against a light-coloured, preferably white, background.
- c. Look straight at the camera with a relaxed face
- d. If the picture is taken on a sunny day, have the sun behind you, or place yourself in the shade, so that you are not squinting and there are no harsh shadows
- e. If you have to use flash, ensure there's no "red-eye"

- f. If you wear glasses make sure that there are no reflections and your eyes can be clearly seen.
- g. Caps, hats and dark glasses are not acceptable. Religious headwear is allowed but it must not cover your face.
- h. Dimensions 200 x 230 pixels (preferred)
- i. Size of file should be between 20kb–50 kb
